## Under Sail | CRUISING

The crew of *Vision Quest* hope to raise \$100,000 or more for cancer research

## Beyond the Sail

The feelings of excitement and satisfaction that go along with fulfilling a life-long dream are, without question, beyond compare. Accepting the challenge on behalf of a cause can make such an occasion even more rewarding, as Dana Anderson found when he embarked on his first transatlantic crossing, dedicated to Caroline Hamilton. Caroline is an 8-year-old family friend who suffers from a pediatric low-grade astrocytoma (PLGA). PLGA is a type of brain tumor that is often inoperable and is resistant to most therapies, a harsh reality that Caroline and her family have been dealing with since her diagnosis in May of 2007.

In June, Anderson left Portsmouth, New Hampshire on *Vision Quest*, his Sabre 426, bound for the Canary Islands. Anderson and his wife Lisa have gone above and beyond the commitment involved in training and preparing for a voyage of this magnitude by together organizing "PLGA Quest: Journey for a Cure." Dana and Lisa hope to raise \$100,000 or more, which will go directly to the PLGA Research Program at the Dana-Farber Cancer Institute in Boston. "Sailing across the Atlantic has been a dream of mine since I was a teenager," says Anderson. "I want children with PLGA to realize their dreams too." — BETH DAIGLE

TO LEARN MORE ABOUT PLGA QUEST,  
VISIT: [WWW.PLGAQUEST.ORG](http://WWW.PLGAQUEST.ORG).

Compass card is spinning, helm is swinging to and fro  
Oh, where is the dog star, oh, where's the moon.  
You're a lost sailor, been away too long at sea.  
Some day's the gales are howling, sometimes the  
sea is still as glass.  
Oh, reef the main sail, oh, lash the mast.  
You're a lost sailor, been away too long at sea.  
Now the shorelines beckon, there is a price for being free.

— John Perry Barlow
